Alexandria

Birthday

30/10/1997

Marital status

married

Personal Profile

- Highly motivated Mechanical Engineer with a strong background in mechanical power engineering, project leadership, and multidisciplinary skills in automotive, firefighting, graphic design, and IT networking. Proven ability to manage complex projects, lead teams, and deliver innovative solutions.
- Currently working as an **Operation Team Leader** at Pyramakerz Technologies, with expertise in **STEAM Education Systems, logistics, international trade, event planning, 3D printing, CNC laser cutting, and mechatronics.**
- Experienced in providing technical and academic support to schools and educators, integrating advanced technologies into educational curricula, and fostering innovation through hands-on learning.

Professional Experience

Junior Operations Specialist at Pyramakerz Technologies (Feb-2024 : Sep-2024)	Senior Operations supervisor at Pyramakerz Technologies (Sep-2024 : Sep-2025)	Operations Manager at Pyramakerz Technologies (Sep-2025 : Present)
---	---	--

- Organized and managed multiple events, including **Steam Tech Day** and **international exhibitions.**
- Streamlined** operations and improved workflow efficiency across departments.
- Provided **technical support** to schools and academic departments, including teacher training and curriculum support.
- Operated and maintained advanced machinery, including **3D printers** and **CNC laser cutting machines.**
- Gained foundational knowledge in **mechatronics** and applied it to improve operational processes.
- Utilized software tools such as **Notion, LightBurn, and Cura** for project management and machine operation.
- Developed skills in **event planning, problem-solving, and cross-departmental collaboration.**
- Supported the implementation of **STEAM Education Systems** in schools, providing training and resources to educators and students.
- Managed **logistics operations**, including product preparation, shipping, and export processes.
- Conducted market research and feasibility studies for exporting products to Saudi Arabia.
- Gained hands-on experience in **international trade** and export procedures, ensuring compliance with regulations and standards.

Education

Bachelor of Science in Mechanical Power Engineering

| Faculty of Engineering, Alexandria University
(2015–2020)

- Overall Grade : High Good (73.17%)

Educational Training

Civil Training

- I attended training at Ezz El Dekheila Factory
- I attended 2 trainings at the Petroment plant
- I attended training at the Edfina factory

Bachelor's project

| Fire fighting project

| Obtained an excellent degree

- Role | team leader
- Description | Designed and implemented a water mist system at El Horreya Center for Creation in Alexandria

Military service

Service period "2021-2023"

| I served as an officer (first lieutenant) on the reserve force

- I served in the Vehicle weapon
- I served in a vehicle workshop in Marsa Matrouh Governorate
- Three years of experience in automotive field

Skills

Technical Skills

| Design & Engineering |

- AutoCAD
- SOLIDWORKS
- MATLAB
- WaterGEMS

| Advanced Machinery |

- 3D printers (Cura)
- CNC laser cutting machines (Lightburn)

| Programming & Prototyping |

- Arduino IDE.

| Management tools |

- Notion
- Monday
- Fillout
- Microsoft programs

Personal skills

- STEAM Education Systems
- Streamlined operations and improved workflow efficiency
- Logistics and International Trade
- Event Planning
- Problem-Solving
- Cross-Departmental Collaboration
- Multi-tasking
- Leadership
- Strong Communication
